

After-Hours Care at BeWell Medical Clinic

Emergency Care Access

For life-threatening or urgent medical emergencies, please call 911 or go to the nearest emergency department immediately.

Provincial Health Advice Line (811)

For non-emergency but urgent medical concerns, patients can call HealthLink BC at 811 to receive advice from a registered nurse. This service is available 24/7 for general health inquiries and urgent concerns that do not require emergency care.

On-Call Physician Coverage & Voicemail System

Our clinic has a structured on-call system to ensure urgent medical advice is available outside of office hours. Our on-call physicians - Dr. Tabassi, Dr. Baradaran, Dr. Sharma, and Dr. Amini - rotate weekly to provide patient support. Patients can leave urgent messages via voicemail, including their name, contact information, and details of their concerns. The designated on-call physician monitors messages regularly and will return urgent calls as soon as possible.

For Non-Urgent Matters

Please book an appointment during regular clinic hours for routine prescription renewals, follow-ups, and non-urgent medical concerns.

Clinic Hours & Contact

Regular Clinic Hours: 09:00-17:00, Monday to Friday
